

THE Belgian

CHOCOLATE SELECTION

CREATING DELIGHTFUL MOMENTS
SINCE 1956

How Sweet Is Your Love?

Founded in 1956, The Belgian has a strong tradition of crafting some of the world's most exquisite chocolates. It is also a testimony to the treasured legacy of its founders, Walter and Renée Gartner. Their love for each other and shared passion to create the finest chocolate led to a bond that is still felt throughout the company today: **Coupling the best ingredients with the finest craftsmanship, to sweeten the hearts of people around the world.**

*"the house where the
lights were never switched off."*

Walter and his wife
Renée chased their
dream to create
delightful moments
and sweeten hearts
around the world.

To know more about our
story, go to our website

The Belgian Chocolate Group

Our family-owned company is a well-established manufacturer and exporter of premium chocolate products offering high quality at attractive prices. All chocolates are made at our modern production sites in Olen and Herentals, near the city of Antwerp in Belgium.

Our team of passionate chocolatiers are masters of creativity and innovation. They keep coming up with irresistible combinations, every time.

IFS Higher Level & BRC AA+

Quality is of the utmost importance to our company. That is why we devote a lot of effort in making our products safe and delicious. In 2012 The Belgian Chocolate Group was the first Belgian chocolate producer who chose for unannounced audits and achieved a BRC certification. This certification reassures retailers and manufacturers of the capability and competence of the supplier.

Fairtrade & Organic

In 2018, The Belgian launched their first organic range, which is also certified Fairtrade. A fair-trade compliance is a clear agreement between producers and farmers to help farmers develop their business. Moreover, this agreement also has guidelines relating to the preservation and respect of the environment.

Beyond Chocolate

Since 2023 The Belgian Chocolate Group is a proud Beyond Chocolate partner for a sustainable Belgian chocolate industry. Together with the other partners in the initiative we are working to end deforestation, stimulate education for future generations and provide a living income for cocoa growers.

Seashells

*For every mood
and every occasion*

Chocolate Seashells

Well-known and adored worldwide, seashell shaped chocolates! Carefully selected ingredients are chosen for the filling, which is covered in fine Belgian milk, white and dark chocolate.

Organic Bars

Delicious varieties

Organic Range

Organic is on the rise in all food categories and also in chocolate. The Belgian offers four delicious varieties of certified organic and Fairtrade chocolates in an attractive packaging design. A fairtrade compliance is a clear agreement between cocoa producers and farmers to help them develop a sustainable and fair business model.

During the production of our organic products, the environment and animal welfare are taken into account. Organic farming and organic products have a positive effect on biodiversity, ecosystems and the environment in general.

Classic, clean organic milk chocolate. The pure cocoa beans make this bar simply irresistible.

With a cocoa percentage of 72, you can almost taste the bittersweet cocoa beans. Every sense is awakened with this heavenly bar.

Bar
